

SUPERNOVA

The worlds first hardwood macro's

Produced in responsibly sourced kiln dried Poplar, Lock Supernova macros are comprised of 10 symmetrical contemporary shapes, guaranteed to bring an astounding aesthetic to your climbing gym. Lock Macros are unparalleled in terms of both quality and craftsmanship.

At Lock we have simple objectives; we aim to reduce our impact on the environment via a considered approach to supply, design and fabrication, whilst raising the bar in terms of quality, aesthetics and functionality. We use FFC certified hardwoods from UK, EU & North America and strictly avoid any species of hardwood where supply has a detrimental impact upon biodiversity. Lock Macro's offer an environmentally conscious alternative to fibreglass.

Supernova macros are produced in our studio in the Peak District on industrial grade woodworking machinery. Engineered to last, each macro features a 3" deep 'lightning' joint, which is extremely durable & brings additional strength to each hold. Our macros are suitable for the pressure wash due to our uncompromising approach to wood finishing.

We also offer a refurb service on all of our macros and dual texture holds, so you can change the finish (gloss/matte) or colour at any time.
